Dear Mr. Pickett;

I want to thank you on behalf of 7-Eleven, Inc. for the improvement that your IceCOLD technology has given the air conditioning and refrigeration equipment in our CDC combined distribution center warehouses.

From the initial installation in the Lewisville, Texas, CDC which showed a reduction in electricity cost of 23.6%, we now have a report from an independent refrigeration service that the savings at the Tampa, Florida, CDC was over 30%. We look forward to similar savings at the Pompano Beach, Orlando, and the Richmond, Virginia CDCs where the IceCOLD technology has been installed with seven more scheduled for installation in February.

Sincerely;

A handwritten signature in black ink, appearing to read 'D. Wiley', written over the word 'Sincerely;'.
