To Whom It May Concern:

On July 12, 2010 we had US Refrigeration Technologies' IceCOLD catalyst installed in our office air conditioners at our Mississippi OSB facility.

We noticed faster cool down and colder vent air. According to our measurements the equipment is operating 15% to 20% more efficiently.

Do not hesitate to call me about our experience with IceCOLD.

Regards;

A handwritten signature in black ink that reads "Andy Lollar". The signature is fluid and cursive, with the first name "Andy" being larger and more prominent than the last name "Lollar".
